Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 7, 8, 10, 11 and 13-21 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Arpin et al (US 5,242,969).

Rejection is maintained for reason of record and following response.

The recited "about 35-70% by weight of a grafted polyolefin emulsion" has little value in a sizing composition absent a particular concentration of said grafted polyolefin in an emulsion. The concentration of said grafted polyolefin in said sizing composition is 35-70% multiplied by a particular concentration of said grafted polyolefin in an emulsion which is absent. Thus, an emulsion having 10% by weight of a grafted polyolefin would yield 3.5-7% by weight in a sizing composition, for example.

The coated fiber does not contain any solvent and thus the recited amount of an emulsion has little probative value. Example 12 shows a majority amount of a grafted

polyolefin. Also, an invention in a product-by-process claim is a product, not a process.

See *In re Brown*, 459 F2d 531, 173 USPQ 685 (CCPA 1972) and *In re Thorpe*, 777 F2d 695, 697, 227 USPQ 964 (Fed. Cir. 1985).

Claims 1-7 and 9-21 are rejected under 35 U.S.C. 103(a) as obvious over Arpin et al (US 5,242,969) in view of WO 99/35172.

Rejection is maintained for reason of record and above.

Claims 1-8 and 10-21 are rejected under 35 U.S.C. 102(a) as being anticipated by WO 00/48957.

Rejection is maintained for reason of record and following response.

Contrary to applicant's assertion, claims 1, 16 and 18 do not have "consisting essentially of". Also, the recitation of "consisting essentially of" alone cannot overcome the rejection based on the art reciting "comprising". See *In re De Lajarte*, 337 F2d 870, 143 USPQ 256 (CCPA, 1964); *In re Herz*, 537 F.2d 549, 551-52, 190 USPQ 461 (CCPA 1976); *In re Janakirama-Rao*, 317 F.2d 951, 137 USPQ 893 (CCPA 1963); When applicant contends that modifying components in the reference composition are excluded by the recitation of "consisting essentially of", applicant has the burden of showing the basic and novel characteristics of his composition - i.e. a showing that the introduction of these components would materially change the characteristics of applicant's composition.

Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
